THE SINGLE ELECTRONIC WINDOW

FOR TRADE AND BUSINESS FACILITATION

WWW.TTBIZLINK.GOV.TT

The Ministry of Trade and Industry continues to revolutionise the way business is conducted in Trinidad and Tobago via the Single Electronic Window (SEW), which is branded as TTBizLink. Given the MTI's commitment to continuous improvement, the SEW was significantly upgraded and saw the launch of the Enhanced TTBizLink Application System on July 17, 2023.

The Enhanced TTBizLink Application System is a secure, user-friendly, online platform that now offers several additional features, along with improved functionalities, navigation and overall usability. The Enhanced TTBizLink Application System which is accessed via www.ttbizlink.gov.tt, currently facilitates the online preparation, submission and processing for **thirty six (36)** trade and business related transactions. These transactions pertain to any of **twenty-two (22)** Government Agencies across seven (7) Ministries, together with the Trinidad and Tobago Chamber of Industry and Commerce.

Complementing the transactional platform is the TTBizLink Trade and Business Information Portal (TBIP), which offers comprehensive information on trade and business procedures along with investment opportunities and incentives. The TBIP utilises customised tools developed by the International Trade Centre (ITC) that enables companies to identify export and import opportunities, compare market-access requirements, monitor national trade performance and make well-informed trade decisions.

TTBizLink therefore truly exemplifies the Government's commitment to inter-agency collaboration, interconnectivity and to partnering with the private sector. Since the launch of TTBizLink's first e-service in 2012 to present, TTBizLink has registered **over 4,700 company/business accounts and 36,500 individual accounts.**

As TTBizLink continues to refine and expand its suite of services, within the coming months, more than twelve (12) new services will be added to the platform.
